Your Honour!

I have got a letter addressed to you,
to München and returned in case of non undelivery.

That thing has occurred so, my
mother, called Sophia I. Labiris was at a time living
in München, but many years ago, as well as my uncle George
Labiris a famous Theologist dead now, so you see that name
was known as and the addressers, It happened that you
were not in München, it seems, when that letter had reached
and was returned but by mistake to my house in Athens,
instead to the person had written it, name of him
ending was not written in the back of the letter.
The letter bears two signatures
one being impossible to read and the other. Mitsa Javuri.

Awaiting your news on that
subject

I am yours truly.
